Hello!

[image]

So hello, as I said in the title this book is about Warrior cats ships, if you are not into shipping or are going to be an ass to me because I have opinions like any other person get out. This should be a safe space to discuss or read others opinions on ships, and I could give less of a shit on what your opinion is if you're going to be an asshole about it, but to anyone who's willing to discuss ships in a civil manner in the comments I'd like to hear what you have to say! I always am opening to hearing others opinions as long as you are kind about it.

Fireheart x Sandstorm

[image]

Okay so I'm starting with Firestorm, Firesand, Sandheart or whatever other names this ship goes by. I like this ship! Not one of my favorites but I think it's still cute! Plus they gave us squirrel and leaf sooo can't be mad at that lol.

SilverStream x Greystripe

[image]

Ahhh yes the original first hafclan relationship of Warrior cats. I actually like this ship, maybe just because it's nostalgic and silvers death was kinda iconic, but I do think they fit well together as a pair and wish maybe we got to see a little more out of them before silverstream died.

Bluestar x Oakheart

[image]

While yes this ship is kinda cute and Oakheart is a sweetie pie and I love him I'm not the biggest fan of this ship personally. Maybe it's because I ship other Bluestar ships more but I also just don't really like it for some reason it just doesn't click for me at all tbh.

Leafpool x Crowfeather

[image]

I think that these two were cute while they lasted! Although I do like LeafxMoth and CrowxFeather a lot better I don't hate this ship, I'd say I enjoy it!

Squirelflight x Brambleclaw

[image]

Absolutely not! I'm sorry to anyone who ships this but I absolutely fucking hate this ship. Like so much it's an extremely toxic and abusive relationship and I am not here for that. Squirel deserves better and I honestly don't like Bramblestar's character at this point, I feel like they need to just break up and stay that way for good.

Squirelflight x Ashfur

[image]

Argh Again, I fucking hate this ship. For almost the same reason as to why I hate BrambleSquirel. They treat her like garbage! Ashfur was decent for like two books and then he just went crazy over her, I mean the dude literally did so much harm to so many cats just to have her when she didn't want him and he literally tried to burn her adoptive children IN FRONT OF HER just because she rejected him. Like dude! Get over it she doesn't like you.

Feathertail x Crowfeather

I actually really like this ship! Say what you want, but I really love this ship I'm sad it didn't exactly go anywhere because Feathertail died but it had potential! And I'm so sad they didn't see that and killed her :(

Jayfeather x Briarlight

[image]

Well..I ship these two more platonically really, I can see why they'd be a cute couple but I think they're just really cute as supper close friends like they are in the books. I still like the ship like romantically it is cute but I see them more as supper close friends y'know? They are adorable tho either way.

Whitestorm x Lionheart

[image]

Idk why but I like this?? The idea of it at least..idk why. but now I have a thought for an Au and ye so this is Fucking cute?? Idk why but it is.

Brightheart x Swiftpaw

[image]

And speaking of lion daddy let's talk about his daughter 😂 uhm so I have actually never shipped this for two reasons, one because cloudtail is bae and he and Brightheart are literally just serotonin to the brain I love them they're so cute I have always shipped them! And also *SWEET HOME ALABAMA* yesss...that's right if the Erin's say that Lionheart is Brighthearts father that means that swiftpaw and brightheart are first cousins, their parents are siblings..sooo sorry to ruin the ship but Lionheart and Goldenflower are siblings which makes these two first cousins if the Erin's are rolling with "oh lionheart actually is your dad!"

Bluestar x Yellowfang

[image]

Okay, okay so here me out- two women with child trauma meet and raise an overly friendly fire child together and help each other through their trauma with their respective biological children. Yes, I ship Yellowfang and Bluestar more than any other ship in warriors and yes they're totally firestars moms and there's no doubt about it I love them.💝

Spottedleaf x Fireheart

[image]

Sooo no. Uhhh Firestar for one has a lovely and dedicated wife in Sandstorm and Spottedleaf is not going to ruin this shit. Second off she started hitting on him before he had even gotten his Warrior name when at the same time she had already been an adult for quite awhile, soo that's not good (definitely picked that up from Thistle) and that's terrible and I don't like it, besides Spottedleaf is like..dead.. so I'm not sure you can exactly date someone if they died. anyway no. I hate this ship, sandstorm is bae and I wish fireheart would see that she's much better than Spottedleaf.

Pinestar x Leopardfoot

[image]

Again, huge age gap. I believe Pinestar was at least like 4 yrs older than her (correct me if I'm wrong) HE WAS OLDER THAN HER PARENTS and he was always to busy with kittypets and stuff to even be there for her. For example, while she had a terrible delivery Pinestar didn't comfort her in anyway, two of their children end up dying and one becomes a monster and he never is there for her again, he never tries to help and he just end up dumping her and every other cat for kitty pets like wtf dude? She needs you and you just bail. I don't think this is a good couple.

Fireheart x Greystripe

[image]

Uhh I don't mind this one. It's cute, wether it's platonic or romantic these two have an awesome bond and their friendship is so cute! FIREGREY 4 LIFE, greypaw was the first clan cat rusty had ever seen and all the stuff they went through after in the clans was so awesome! Love these two and their adventures they're definitely boyfriends.

Ravenpaw x Barley

[image]

CANNON I SAY CANNON I Fuckin love this ship with all my heart I'd livveee for being able to live in a barn all day and be with my gay significant other and just be able to cuddle with them constantly, all day everyday. these two are adorable and totally gay for eachother and that's my favorite for them🏳️‍🌈 Ravenpaw declining his invitation to StarClan to be able to wait for barley was a beautiful moment for sure I hope they get to see each other soon they deserve to

Dustpelt x Ferncloud

These two are kinda more basic I'd say but I did have to do some research on their family for a contest thing and actually these two are pretty cute to me now that I spent all that time on little facts getting to know their relationship but supper tragic

Cloudberry x Doestar

I LAV💔✧🤌 oh my fucking god. I- I know there's not much to go off of for these two but, with what we can see of them together and stuff Cloudberry is totally Doestars right hand woman and girl sacrificed her own life to make sure Doestar had a proper burial, as close friends or maybe more idk I just see these two as being very close and maybe being girlfriends 😎

Cloudtail x Brightheart

[image]

GIRLFRIEND DONT EVEN GET ME STARTED these two are like one of my most favorite cannon ships, their relationship is just so healthy and loving. 💔💔 Cloudtail couldn't care less if she has terrible scars on her face, he loves her and her scars anyways and he sat with her almost every day and night after the accident, made her feel loved and safe, helped her get over the trauma of her accident and her best friends death and helped her find a new meaning in life. Cloudtail is total bae and those two are perfect. (Yes, just realized the error fixing it now)

Longtail x Darkstripe

[image]

I hmmm..I ship these two platonically if that makes sense, I wouldn't see them as romantic ever but as besties for sure I ship them lmao. I don't really have much to say since I actually never even thought about this as a ship till a friend brought it up so

Longtail x Mousefur

[image]

I do like this ship but also more platonically as well. These two are obviously besties and have a load of love for eachother but I think in a friend way so yeah ^^ I still adore their friendship in the books so much though!

Leopardstar x Sasha

[image]

I like this ship and I like it way more than I should probably lol. These two are adorable and I kinda wish Sasha would've stayed in Riverclan longer..💔

Tigerstar x Brokenstar??

[image]

Uhhh okay, well I got my buddies to recommend some weird ships for me to rate so here's how this got here.. uhh Tigerstar x Brokenstar..?? at first I thought this was just a weird recommendation by my friend but this ship ACTUALLY exists and that's a BIG nope. Lmao they were both for one way to busy taking over their clans to even realize each other's existence and also just no? Idk why but this ship screams nope and I headcannon brokenstar to be aromantic so I wouldn't really ship him with anyone anyways. But yeah..just no. This one is gonna fuckin burn my eyeballs for awhile-

Feathertail x Leafpool

[image]

Awe. I think this ship could be nice :) though I'm a sucker for mothpool I do think this has a potential to go places and I'm totally here for it lmao👍 they've got common things going for them as well as both being exes of crof I think that's something they could bond over and maybe turn into something more 👹💔 slay queens

Update!

Hello everyone, little update here I've seen people are actually reading this now and seem to like it so I'll try to update as much as I can, but speaking of that I would just like to bring a few things up explaining why I haven't been uploading as much and whatever. Anyways I have Ewing's sarcoma (bone cancer) and I have just relapsed after only about...6 months, the news was absolutely devastating and I wasn't really there mentally at all for about a month just trying to process the whole thing because it's crushing, (was re diagnosed in may btw) I've also started chemo and it's absolutely destroyed my health so I've been greatly focused on making sure I'm safe and staying away from germs and shit, so lots of showering, sanitation, cleaning yadayada. Which takes a lot of time so anyways basically what I'm trying to say is if I take a bit to post something, this is most likely why and please try and be patient while I clear some time :) anyways thanks for listening I'll be sure to get some stuff out tonight while I'm around! Also I'm okay yes I wouldn't like to bring this up much anymore but I'm doing a bit better now.

Daisy x Ferncloud

[image]

This is cute! Nursery mamas for life! I don't know about romantically because I just see them as absolute friends but....there's always a possibility this could grow on me! Still love them platonically though! Incredible lady's doing what they love and serving their clans by helping out with the littles! Absolute Queens you go ladies!

Mistyfoot x Fireheart

[image]

Hmmmm this has AU potential that I like and I'm not afraid to admit it- dunno if I like it in cannon but this could go places and I love it- all I have to say about this one.

Tigerstar1 x Fireheart wtf

EAHHHH- 🙀 🙀 WHAT- NOOO THIS EXISTS HELP ME absolutely fucking not, whoever created this musty, dusty, crusty ship needs absolute help I'm sorry but firestar x tigerstar?! absolute atrocity for one no. They're rivals and they're staying that way no rival romance here these two want each others blood, secondly and the worst part TIGERSTAR IS ALMOST BLUESTARS AGE wayyyy tooo old for him that's atleast like 4-7 years older than him there's no way- fuck off im not even putting anything else here this can go burn in the depths of ship hell

Bluestar x Spottedleaf

[image]

Idk what it is with shipping bluestar and her med cats but all of these ships are so cute (besides blue x cinder ofc that ones an atrocity □) anyways blue x yellow, blue x spotted. I actually think they're both so cute! I mean they have potential and bluestar is close with spottedleaf it could happen, but I think spottedleaf should be a single gal none of her poor cannon relationships ever work out and they're all gross so idk now-

Hollyleaf x anyone

[image]

All Hollyleaf ships are valid and are amazing (besides the obviously cursed ones) holly x willow, holly x fallen, holly x cinder, holly x hazel literally Hollyleaf is the best when it comes to shipping because there's so much potential for each and every one of her ships because she can actually
make friends unlike everyone else in modern thunderclan- and hollyleaf is so great so yes. Ship her with whomever and I'll love them all, as long as it's not like cursed like her x Leafpool or some shit because that's no no.

Swiftpaw x Gorsepaw

[image]

Okay but actually maybe? Because these two have quite a bit in common I think they could bond over, they both had their deaths caused by tigerclawstar in some way or another, neither got to get their warrior names and both died really young..I feel like they could each help the other cope with it and stuff y'know? And that's pretty cute I think💔

Leopardstar x Tigerstar the first

[image]

Okay, no? Any ship with tigerclaw is bad immediately because of him and his actions. Also Leopardstar you make very, very bad decisions when you are with/around him. I mean you got someone brutally executed for protecting kids while you were under tigerstars influence, absolutely not these two have terrible influences on eachother besides I prefer the very gay other pairs of her x sunfish or her x Sasha. Much more cute, much more healthy and no stupid ass tigerstar the first we love that!

Leopardstar x Sunfish

[image]

Okay, okay, hear me out... LEOPARDSTAR IS A BISEXUAL QUEEN AND IS VERY GAY FOR HER BEST FRIEND, so gay infact that she adopts and raises Whiteclaw as her own after sunfish dies and is extremely gay for her in Leopardstar's honor, prove me wrong they're amazing definently in my top 10💔

Please suggest some ships!

Me and my friends can't think of any ships right now so if you could please leave some I haven't done yet it'd be greatly appreciated!!

Cinderpelt x Brightheart

ABSOLUTELY NOT TO WHO SUGGESTED IT YOU KNOW WHO YOU ARE AND IDK HOW YOU THOUGHT OF IT BUT THATS EVIL

for anyone un aware of why it's so bad, let me explain. THEYRE FULL SISTERS NOT EVEN DISTANTLY RELATED LIKE ALL THE OTHER LITTLE SHITS IN THUNDERCLAN. FULL SIBLINGS IM DEAD IM DYING I- NO.

Millie or Silverstream x Sandstorm

[image]

Huh? Hmmmmm idk why but sandstorm x Silverstream or Sandstorm x Millie is just really cute okay? I don't have a reason on why I like it because my brain isn't working at the moment but they're cute trust me💖💖

Bluestar x Rosetail

[image]

Cute, cute, cute, cute. I like this one. All I have to say. It's cute. I like it.

Crookedstar x Willowbreeze

[image]

Okay I don't know how I haven't gotten to this one yet because it's always been one of my favorites and after re reading crookedstars promise again for the 100th time I guess it's only fit to rate this now and I'm saying it. I FUCCKKKKINGGGGG LOVE THIS PAIRING they're so sweet to each other and literally show each other nothing but love, and willowbreezes death hit me so hard I love her and wasn't ready to see these two split up at all when I first read crookedstars promise and still am not everytime. this is honestly my #1 and has been my number one for years also they gave us silverstream the sassy queen herself everything good comes from them lol! But also everything depresing I guess too-

Alderheart ships

[image]

Yay first suggestion here on Wattpad! :))

I actually love all of his ships! Especially alderheart x needletail idk why but I got really attached to that one for awhile and surprisingly enough I do love needletail so added bonus to that one though alderheart x velvet is pretty cute too! Idk I love 'em all tbh💕

Hawkfrost x Ashfur

[image]

HEAR ME OUT!! GAY? AND EVIL?? YES SIR LITERAL EMBODIMENT OF "BE GAY DO CRIME" ITS PERFECT

Scourge x Ashfur

[image]

Okay now we're reaching crack ship region. I was okay with Ashfur and Hawkfrost because they're around the same age, but definitely not with this one because scourge was already a full blown ass adult when ashfur was still a kitten! That's bad already but it gets worse....scourge is already dead and has been dead for years before ashfur even starts being all emo baddie so it's not like there's even anything to go off of what the fuck is this?! I'm shutting this one down rq this sucks ass please don't ever ship this my god there's so many problems with it that I can't even begin to even list. Just no.

Bluestar x Crookedstar

[image]

This had potential when they were being friends as paws but I don't like it for two reasons. Willowbreeze and Yellowfang. I already ship these two with the two said so much that I physically can't ship them with anyone else so yes this is a respectful no although they could've had potential, I like like them very much as friends or rivials and friends or rivals only.

New book?

[image]

Eyyyy I just had an idea, I'm going to do a book on my Warriors lgbtq+ head cannons because literally all the warrior cats are gay af and there's nothing you can do to change my mind because they're all just..gay so look out for that book! :)

Oh my gosh thanks for much for 1k veiws!

Oh man I was never expecting this book to even be read to be honest never the less getting this many views! *cries* this means a lot and I just wanted to thank everyone so much!! It means a lot! Also while it's fresh on my mind I just wanted to update about my condition. I've gotten my scans back and my tumors are responding to the chemo! And they're hoping to do surgery on my leg that has the main tumor soon! I'm doing a lot better emotionally as well and haven't been breaking down for having panic attacks as much so I am doing much better and the fact that people actually like my opinions or at least my book is also nice haha so thanks guys!

Bluestar x Thrushpelt

[image]

Another suggestion yay! So I don't mind these two but I like them as friends, I don't think thrushpelt would deserve to be with someone who doesn't like him back since I love him so much I'd never ship him with bluestar for that reason but I think he should've gotten a different mate in cannon I agree with the commenter he deserves it. I do though infact think that he's mosskits willingly adoptive father in starclan. I think Snowfur of course is her main care taker but Thrushpelt also fills a fatherly role for her in starclan since Oakheart is still living for quite a long time after mosskits passing and thrushpelt is in starclan. Besides she's never met Oakheart until he died and only knew Thrushpelt as her father since the beginning so he at least gets a fun ice child out of that whole fiasco with Bluestar I love him so much.

Thrushpelt x Snowfur

[image]

Okay, so this is actually a ship I've come to kind of love so much. So as I said before Snowfur and Thrushpelt are Mosskit's adoptive parents in Starclan in my headcannoning. Thrushpelt never had a mate and Snowfur's husband went evil and is now divorced and in hell. Uhm so they're both single. I think they could first bond over mosskit and eventually maybe other things and maybe they could be a cute couple....I dunno it's an idea and it's an idea I'm sort of liking the more I think about it??

OKAY EDIT I LOVE THESE TWO THEYRE TOGETHER THEYRE TOGETHER IN STARCLAN AND YOU CANT CHANGE MY OPINION

Moonflower x Sunstar

[image]

If I'm not mistaken I haven't talked about these two yet and if I have (oh well updated opinion I guess) but if not that's probably because I have ALLLOTTTT to say about these two, Good things though! I have nothing but love for this paring and with my Starclan headcannons of course these two are together. I think that after Moonflower passed away she watched from Starclan and realized just how much Sunstar was there for her kids and her in extension when Stormtail was not, she realized how badly stormtail had treated her (basically cheating on her with dappletail and ignoring her and countless other instances) and decided that they were no longer mates long before but made it final when he joined Starclan. When Sunstar joined she basically thanked him over and over for what he did for her and her kits and basically spilled everything, her realizing how much she actually loved him and how wrong she was for choosing stormtail prior and eventually after a bit they get together and Sunstar is now mosskits definite grandpa and stinky stormtail can just go because he's awful. Basically that's a short summary of my story for them but let's just let it be known I LOVE LOVE LOVE THIS SHIP💔💕

Tallstar x Jake

[image]

If we're going with supper edition characters and their ships might as well talk about Tallstar's revenge. Since I know I'm really behind but I just read it for the first time like a week ago and can I tell you oh my god these two are GAY. LIKE, REALLY GAY for eachother. I love, love, loved them and their stupid little adventures so much, Jake trying to talk Talltail out of trying to kill sparrow, Talltail and Jake teaming up to catch prey, Jake comforting Talltail when he's trapped in Jake's two legs house, Their separating at the end OH GOD I LOVED EVERY MOMENT OF THIS BOOK AND SPECIFICALLY THESE TWO now I get why people love them just so much and I really recommend Tallstars revenge because these two are supper gay and awesome in that book ahaha.💕💕

Yellowfang x Raggedstar (pelt)

NO. Simple no. These two are really awful together..Raggedpelt is abusive and ended up warping her view of love in the end. Leading to her letting ashfur into starclan because she didn't understand that isn't how you show love. All due to raggedstar being awful. Raggedstar also enables brokentail and doesn't discipline him leading to brokenstar going on to murder him, multiple children, and blaming the deaths of Yellowfangs SIBBLINGS on her. Raggedstar. I hate you. a big fuck you from the bottom of my heart. I know Brokentail was a bad cat and chose his own actions but you were a massive enabler of his bad actions and you never tried to reach him how to properly act to even try to prevent the situation at all. You caused Yellowfang and all of your friends and family so much heartache, chaos and suffering. You're awful. This is so much my least favorite I can't go find a pic because

Stormtail x Dappletail

[image]

No. Not a big fan. Moonflowers one of my favorite characters and he did her dirty, and even if she wasn't he still basically emotionally cheated on her with Dappletail. And Dappletail, hun. I love you but it's not like you didn't know they were basically cat married. Stormtail cheated and even cheated to the point he left Moonflower's side during battle to help Dappletail and lead to Moonflower being brutally mauled to death by Hawkheart. If it wasn't for his obsession with Dappletail, Moonflower potentially could've lived longer. And would've made his kits lives so much better that makes him an even worse parent also. This man in the ENTIRE supper edition he was in. Only had one good scene that was only slightly redeeming. Stormtail why? Why'd you cheat, why'd you leave Moonflower to die? + Dappletail was like....a lot younger than him..not sure how much but he was already and had already been a warrior for quite awhile before she was even apprenticed. No. This ship is problematic for many reasons. awful I'm sorry.

Lionblaze x Toadstep

Daaawwwww okay so this one I can see as either a one sided crush on toadsteps side or just toadstep really, really admiring him and lionblaze being all happy that someone looks up to him it's cute either way lol I'll maybe put a pic later

Rowwanberry x Wolfstep

Idk why I was re reading Yellowfangs secret and thought the few scenes these two had together were cute so here's a little un common ship thrown out there

Russetfur x Foxheart

😒 it's.....idk what it is I ship them a lot for some reason even though they have probably only interacted in the book like twice dunno I like it.

Leafpool x Sorreltail

Gah it's been a looonnngggg time since I read the second series which I think I remember is when they had most of their interactions but from what I remember it was pretty cute?
